**AZERBAIJAN MEDICAL UNIVERSITY
DEPARTMENT OF INTERNAL DISEASE I
SCHEDULE FOR STUDENTS IV COURSE
SUBJECT- INTERNAL DISEASE**

№	Date	Content	Hours
1		Pneumonia; clinical features depending on etiology, investigations, verification of diagnosis	2
2		Pneumonia; complications, treatment (etiology, pathogenic, symptomatic, etiopathogenic, physiotherapy, diet).	2
3		COPD; risk factors, etiology, pathogenesis, classifications, clinical features.	2
4		COPD; investigations, complications, prognosis, verification of diagnosis, treatment (pharmacological and non-pharmacological).	2
5		Asthma; risk factors, etiology, pathogenesis, pathomorphology, classification.	2
6		Asthma; clinical forms, investigations, verification of diagnosis. Asthmatic status.	2
7		Asthma; complications, treatment. Management of Asthmatic status.	2
8		Infective endocarditis; epidemiology, etiology, pathogenesis, pathomorphology, classification, clinical features, investigations, diagnosis.	2
9		Acute rheumatic fever; etiology, pathogenesis, pathomorphology, clinical forms.	2
10		Acute rheumatic fever; clinical features, investigations, complications, verification of diagnosis, treatment.	2
11		Valvular heart disease; mitral stenosis, mitral regurgitation. etiology, pathogenesis, clinical features, investigations, complications, treatment.	2
12		Valvular heart disease; aortic stenosis, aortic regurgitation. etiology, pathogenesis, clinical features, investigations, complications, treatment.	2
13		Valvular heart disease; tricuspid regurgitation. etiology, pathogenesis, clinical features, investigations, complications, treatment.	2

14		Atherosclerosis; risk factors, epidemiology, etiology, pathogenesis, classifications, clinical features, verification of diagnosis, treatment.	2
15		Essential hypertension; risk factors, epidemiology, etiology, pathogenesis, classifications, clinical features, verification of diagnosis.	2
16		Essential hypertension; complications, prognosis, treatment. Hypertension in elderly.	2
17		Ischemic heart disease; risk factors, epidemiology, etiology, pathogenesis. Acute coronary syndromes; clinical features, investigations, verification of diagnosis, treatment.	2
18		Ischemic heart disease; Angina; pathomorphology, classification, investigations, EKG.	2
19		Ischemic heart disease; Angina in the elderly. Verification of diagnosis, prognosis, treatment, indications to surgery.	2
20		Ischemic heart disease; Myocardium infarction. Pathomorphology, classification, investigations, EKG.	2
21		Ischemic heart disease; Myocardium infarction. Complications, prognosis, verification of diagnosis.	2
22		Ischemic heart disease; Myocardium infarction. Treatment, surgery, prevention.	2
23		Chronic heart failure; etiology, pathogenesis, classifications, clinical features.	2
24		Chronic heart failure; prognosis, verification of diagnosis, treatment (pharmacological and non-pharmacological).	2
25		Chronic gastritis; etiology, pathogenesis, clinical features, investigations, verification of diagnosis, treatment.	2
26		Gastric and peptic ulcer; etiology, pathogenesis, clinical features, investigations, verification of diagnosis, treatment (pharmacological and surgery), prognosis, complications.	2
27		Enteropathy; Malabsorption, coeliac disease, sprue; etiology, pathogenesis, clinical features,	2

		investigations, complications, verification of diagnosis, treatment.	
28		Irritable bowel syndrome. Diverticular disease; etiology, pathogenesis, clinical features, investigations, verification of diagnosis, treatment (pharmacological and surgery), prognosis, diet.	2
29		Chronic hepatitis. Chronic viral hepatitis (B, C, D); etiology, pathogenesis, clinical features, investigations, complications, verification of diagnosis, treatment.	2
30		Chronic hepatitis. Chronic viral hepatitis (B, C, D); etiology, pathogenesis, clinical features, investigations, complications, verification of diagnosis, treatment.	2
31		Chronic hepatitis. Chronic viral hepatitis (B, C, D); etiology, pathogenesis, clinical features, investigations, complications, verification of diagnosis, treatment.	2
32		Alcoholic liver disease. Fatty liver; etiology, pathogenesis, clinical features, investigations, complications, verification of diagnosis, treatment.	2
33		Drug-induced hepatitis; etiology, pathogenesis, clinical features, investigations, complications, verification of diagnosis, treatment.	2
34		Acute glomerulonephritis; etiology, pathogenesis, clinical features, investigations, complications, verification of diagnosis, treatment.	2
35		Chronic glomerulonephritis; etiology, pathogenesis, clinical features, investigations, complications, verification of diagnosis, treatment.	2
